	Advances in AI (21M71CS112)		
	Course Outcome	**Direct Assessment Tools (80%)**	**In-Direct Assessment Tools (20%)**
C161.1	Understand the characteristics & significance of AI	T1, End Term, Assig.-1	Course Exit Survey
C161.2	Analyze several AI/ML techniques to yield and process information from open real-world data sources	T1, End Term, Assig.-2	Course Exit Survey
C161.3	Apply the concept of Machine Learning for industrial applications	T2, End Term, Assig.-3	Course Exit Survey
C161.4	Evaluate the use of the Machine Learning algorithms towards pattern mining	T2, End Term, Assig.-4	Course Exit Survey
C161.5	Design algorithmic frameworks for solving time series data patterns	End Term, Assig.-5, Project	Course Exit Survey
